

Traffic lane realignments to begin soon

New temporary valet lanes to serve the Spa Resort Casino

PALM SPRINGS- Beginning this week (June 13), minor traffic lane realignments will begin in a one-block area on the Agua Caliente Indian Reservation in downtown Palm Springs.

The realignments will make way for a temporary valet put in place for construction of a new 850-stall parking garage that will be located just north of the Spa Resort Casino.

The minor realignments will be clearly marked and motorists and bicyclists will be directed into the new temporary lanes on Andreas Road and Calle Encilia, south and west of the Spa Resort Casino.

Though some parking spaces at the Spa Resort Casino will be temporarily closed during the construction process of the parking garage, the total number of valet, self-parking, and handicap accessible spaces has been increased in the past year to provide for guest convenience through this transition.

"The Spa Resort Casino team looks forward to providing convenient covered parking in our ongoing pursuit to offer the best possible experience for our guests and visitors to the valley," said C.J. Graham, Chief Operating Officer of Spa Resort Casino and Agua Caliente Casino Resort Spa.

Installation of the temporary valet will take about four weeks, followed by the construction of the new parking garage, which is expected to take about one year to complete.

Agua Caliente Band Of Cahuilla Indians

The Agua Caliente Band of Cahuilla Indians is a federally recognized Indian Tribe located in Palm Springs, California, with 31,500 acres of reservation land that spread across Palm Springs, Cathedral City, Rancho Mirage and into the Santa Rosa and San Jacinto mountains. For more information about the Tribe, visit: www.aguacaliente-nsn.gov.
